

# Edsal Compact Safety Cabinets

Model Number (s)

SC13P - SC16P - SC22P  
BWH24P

## Safety Instructions

Handle Flammable liquids carefully and in accordance with all stated directions on the containers. Evenly distribute all weight on shelves, keeping the heavier loads on the lower shelves. Keep doors of the cabinets closed as much as possible. Each cabinet is equipped with two (2) fire arrestors and connections for a 2" standard pipe fitting for external exhausting. Always check with local, state, and federal fire codes prior to the use and/or installation of the cabinets. Consult with qualified safety personnel to determine any specific needs.

## General Instructions

Use Caution when handling and assembling metal parts. The use of protective gloves is recommended. Do not use this unit for anything that is outside the designed function of flammable liquid storage. Always remember to use proper lifting techniques when moving either the cabinet or its contents. Galvanized shelves rest on fixed shelf supports adjustable on 2 1/2" centers. Vent covers are installed on both the inside and outside of the cabinet. Cabinet leg levelers (except BWH24P) enable you to level the cabinet at 4 points. A grounding screw (ground wire not included) is located on the lower right outside panel of the cabinet.
