INTRODUCTION

Sandusky Cabinets, Lee Metal and Atlantic Metal have been major suppliers of Steel Storage Solutions for nearly 70 years.

Our recently combined companies provide a more diverse and broader product line focused on the office, commercial, industrial and educational markets. Our three strategically located shipping locations (California, Tennessee and Pennsylvania) deliver the lowest logistics costs and fastest delivery times in the industry while ensuring that your product is handled a minimal number of times in transit.

» We look forward to working with you and the opportunity to supply your storage needs.

- * Available with swing handle, replace "R" with "2" in stock number
- Handle requires some assembly.

Keyless Electronic Welded Storage Cabinet

Heavy gauge welded steel construction, meets ANSI/BIFMA shelf standards. Four adjustable shelves on 2" centers, plus raised bottom shelf. Three sets of hinges on each door. The cabinets are equipped with a keyless electronic coded locking system. The coded lock is available with two passwords, the administrator and the user. These can be changed to any combination of numbers, four for the user and six for the administrative password. The keypad also keeps a record of the day, date and time of when the cabinet is accessed, which can be displayed when the mechanism is idle. Emergency key included. Powder coat paint finish.

LAPTOP SECURITY

Wall-Mount Laptop Safe/Security Cabinet

Powder coated charcoal color in stock. Custom colors available upon request. 20 gauge welded steel construction. Fits most laptops that are 17" or smaller. The platform where the laptop sits is 12¼"H x 17¼"W and comes with a cushioned pad. When the door is down the length from the back of the cabinet to the top of the door (platform) is 18¾". Electronic keypad lock run by 4-AA batteries. No need for keys. Has administrative password and user password. Both can be changed. Keypad has two backup emergency means. The first is an external power source. If the battery fails, it plugs into the keypad. The second is a key, if the code is forgotten. This is located under the handle plate. The platform has adjustable elastic straps to hold the laptop securely in place when closed. The left and right sides of the unit each have a grommet 1½" in diameter for power cords to allow for charging when the laptop is secured. Cell phone and camera storage holders included. Features side vent holes for ventilation. Space in bottom for a power strip. Shipped UPS. Shipping weight is 20lbs.

ANTI-MICROBIAL

What is Anti-Microbial Powder Coat Technology?

An advanced powder coat containing an additive that inhibits the growth of mold, mildew and bacterial odors.

How does it work?

In the presence of moisture on the surface, the advanced powder coat releases positive silver ions to bind to the harmful negative microbe which then inhibits the effects of mold and mildew on painted surfaces. This product does not protect users or others against bacteria, viruses, germs or other disease organisms. Always clean these products thoroughly after each use.

FEATURES

- Sandusky provides tapered lock rods for sure fit closure.
- Each door also includes a welded full length door stiffener.
- Felt pads protect the painted surface and assure quiet closure.
- All Sandusky fixed shelves are interlocked within the side break and welded.
- This process significantly increases the strength of the unit and the shelves.
- Sandusky triple forms the sides from top to bottom which greatly increases the stability of the unit.
- Sandusky provides a user friendly adjustable shelf clip. Four shelf clips are positioned at the front and back edges of the shelves, relieving stress from the sides. Shelves adjust easily at 2" increments.
- Shelf weight capacity varies by shelf width. Weight should be evenly dispersed over entire shelf. Meets ANSI/BIFMA shelf standards.

ADJUSTABLE SHELF WIDTH	17"	*24"	*30"	36"	46"
SHELF CAPACITY	85 LB	120 LB	150 LB	180 LB/200 LB	230 LB
FIXED SHELF WIDTH	30"	36"	46"		
SHELF CAPACITY	125 LB	150 LB	230 LB		
* TRANSPORT 24", 30" WIDE HOLDS 180 LB					

- A tru-lock three point rod assembly (rounded bars, not flat) with tapered rod ends is used on the Classic, Elite, and Transport Series. Plastic rod guides in the top and bottom of the door provide quiet and easy closure.
- Adjustable leg levelers available on certain models.
- Chrome recessed push button locking handle secures under fixed shelf.
- All adjustable shelves can be reversed to create a "tray effect" to contain rolling or shifting items. Shelves may also be slanted for a more practical way of viewing shelf contents by elevating the rear two shelf clips one notch.
- Raised bottom shelf is featured on the Elite, Classic Plus, Audio/Video, Computer, Transport, Bin Cabinets and Bookcase Series. This provides a second bottom shelf that can be positioned level to front lip, for ergonomic purposes, or positioned as an additional shelf. The flat bottom design also provides additional stability.

FEATURES

Caster and Mounting/Support Base Specifications for Sandusky Lee Transport® Cabinets, Audio Video Cabinets and Computer Cabinets

Casters mount to a 6" wide full depth 12 gauge plate that bolts through the cabinet bottom into 1¼" angle iron that runs the width of the cabinet, front and back. All interior bolts and angle iron are concealed from view by a false bottom shelf. (U.S. Patent No. 5980008)

Swivel polypropylene casters. Overall caster height is 6", 2 have side brake locks, 5" wheel diameter, 1¼" wheel width.

Heavy 12 gauge steel support plate.

Finish is corrosion-resistant zinc.

Full depth steel plate is 6" wide.

90°, ½" full depth break for additional strength.

Finish is galvanized steel.

Heavy gauge 1¼" x 1¼" angle iron.

Fastening bolts with flat washers and locking nuts included.
