

IMPORTANT:

This part of cam should touch underside of shelf.
NOT BEHIND LEFT DOOR

**IF HANDLES ARE NOT VISIBLE,
THEY ARE PACKED BETWEEN
SHELVES**

LOCK HANDLE ASSEMBLY

NOTE: Please notice that one of the handles is a RIGHT lever rotation and one is a LEFT lever rotation. Single handle cabinets have right lever rotation.

1. Determine right and left handle and with cam off shaft, attach proper (right or left) handle to the right (facing) and left (facing) doors, using screws provided.
2. With handle in straight down position slide cam over shaft (as shown above) until it touches the underside of shelf. Tighten cam screw.
3. Proper installation should have the right door handle rotate to the right and the left door handle rotate to the left.

THANK YOU FOR PURCHASING A SANDUSKY STORAGE CABINET
